

NSM **MUSIC**

MUSIC SYSTEMS OF THE FUTURE

icon™ **FUSION**

The brand new jukebox from NSM Music
THE SIZE OF THE ICON 2*
BUT WITH THE FEATURES OF THE APOLLO

Introducing

icon™ **FUSION**

The icon Fusion is a phenomenal step forward in technology and design. Taking the very best from the Icon Family range of jukeboxes, set to continue the legacy of the hugely successful Icon and Icon Apollo. The Fusion has a level pre-emptive prestige never before seen in a Jukebox. Setting a high precedence within the industry. The Fusion is a pure pedigree born from a rich heritage.

The Icon Fusion is the latest technological marvel from NSM Music, amalgamating two jukebox legends in a perfect power-packed Fusion. The Icon Fusion has the full front screen and stylish polished framing as the Icon Apollo whilst maintaining the Icon 2's profile and size.*

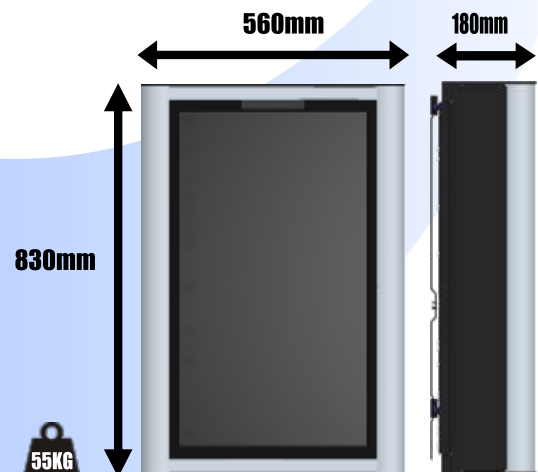

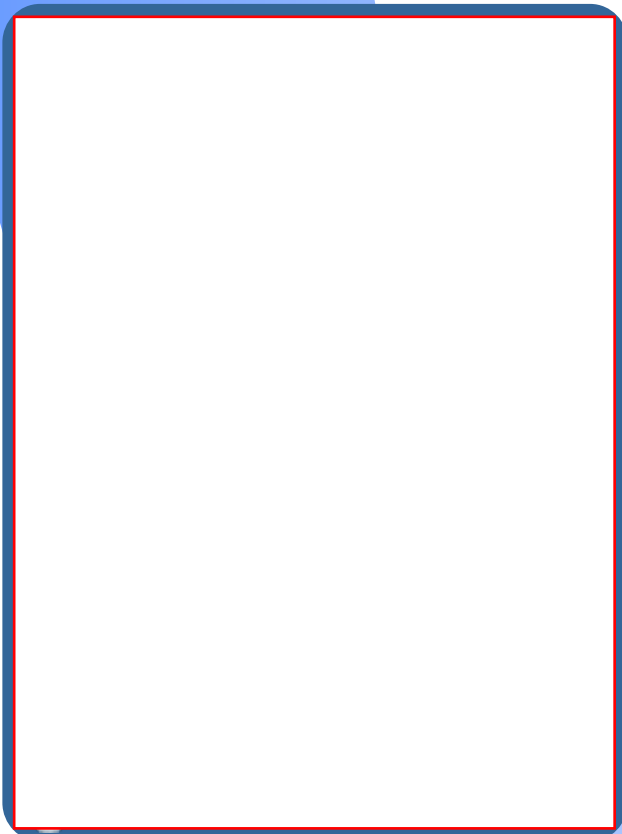

Icon Fusion is powered by the brand new Icon 2 IPAC, packing it full of high performance components and features. The focal point and main selling feature is the huge 32" Samsung screen which immerses the user within the interface. The display is divided into 3 core sections, User interface, Data Belt, and a dedicated Music Video section.

The Data Belt displays live information from RSS feeds, allowing such information as live weather, news and sports results to be fed directly onto the screen. For the first time all music videos have the space to play on screen. The dedicated music video section at the top will allow users to see their videos upon selection.

tech spec

Motherboard: KT690/AV690
Processor: AMD Turion™ X2 Dual Core
Memory: 1GB Crucial DDR2 667 MHz
Display: 32" Samsung TFT
Touchglass: Projective Capacitive Touchscreen
Graphics: Integrated ATI Radeon X1250
Hard Drive: 500GB SATA Western Digital
Updates: DVD Drive & USB Ports
Music: 40,000 Tracks (80,000 Online *)
** Online & 3G Options available*

* SIZE IS APPROXIMATE TO THAT OF ICON 2
