# One Home for Music

## Store up to 1,000 CDs

Take all those CDs cluttering up the living room, store them digitally on the Wurlitzer Digital Jukebox, then stash them in the basement . . . or better yet, let your kids borrow them so they can learn about REAL music.

## Access 100 Digital Radio Channels

Tired of mass market radio with its formula of 4 or 5 formats? Do friends claim your music tastes are just too picky? Well now the choice is yours, from Baroque to Blues, Big Band to Bluegrass, with Wurlitzer Digital Radio, there's no such thing as too picky.

Wurlitzer Digital Jukebox

## Download From a Library of 400,000+ Songs

OK, so you are too picky. No problem, because you now have access to hundreds of thousands of songs—from major label to independent artists—available for instant download directly to your jukebox.

## Premium Sound System by Klipsch

Klipsch just sounds better. From advanced digital amplification to superior loudspeaker design, the Wurlitzer Digital Jukebox and Wurlitzer Digital Jukebox TT utilize exclusive Klipsch technologies to deliver the Ultimate Sound Experience™.

*Your Music has Found a Home*

# One Touch Simplicity

## Graphical User Interface

The world's coolest music interface is also the world's easiest. Can't remember the name of the Rolling Stones album with the tongue? No problem . . . just scroll through 'til you see the tongue . . . press play.

## Automatic CD Info

Still wrestling with your so-called "CD organization" system? Now just insert a CD and watch the Wurlitzer Digital Jukebox automatically capture Cover Art, Artist Name, CD Title, Song Titles . . . and ultimately your heart.

Wurlitzer Digital Jukebox CP

## Wireless Touch-screen Remote

Change CDs, download music, create a playlist, all of this can be done without ever leaving your living room couch (though we suggest getting up every once in a while just to get some exercise).

*The Sweet Sound of Simplicity*

# Infinite Possibilities

## Multi-room Music System

Don't fight the fact that your husband has bad taste in music. Let him play his "garage rock" where it belongs . . . in the garage. Meanwhile, your music is playing in the kitchen while a big purple dinosaur serenades the kids upstairs.

Wurlitzer Digital Jukebox TT

## Personalized Playlists

Admit it, you have a larger than average collection of "one-hit-wonder" CDs from the 80s. We're here for you. Now you can make a playlist of the good stuff and ignore the rest . . . or create separate playlists for cooking, working out, or entertaining.

## Syncs to Portable MP3 Players

Your kids can export music from the Wurlitzer Digital Jukebox to their portable MP3 player. In fact, you should get yourself an even better MP3 player and do it for yourself, then your kids will think you're really cool . . . OK, your kids won't ever think you're cool, but you'll still have a better MP3 player.

## Create "Mix CDs"

There's never been a better way to say "I Love You" than spending hours creating a "mix tape" of her favorite songs. It's becoming a lost art, really. Well now you can take any of your 15,000 songs and instantly create a "mix CD". She doesn't have to know it only took minutes . . . just 'cause it's easy doesn't mean it's not love.

*To Simplicity and Beyond...*
