

HopStar

*Get up &
GET HOPPING!*

HopStar is sure to get your game room hopping! With its interactive, skillful game play, bright, colorful cabinet and the durable infrared hop pad, HopStar is a must-have for all game rooms; especially those with highly active kids!

Coin up and hop as far as you can on the hopscotch course in a set amount of time. Challenge yourself to improve; the faster you hop, the farther you get... which means more tickets! You can even add time to your game by hopping on the bonus time clocks.

The randomized 3-dimensional courses on the 42" screen provide variety and new challenges for every game. The progressive jackpot feature, course time and difficulty controls are completely adjustable in the operator menu, making the game a perfect fit for any location.
