

NOW IT'S A WHOLE NEW GAME.

It revolutionized football games. It featured bone-crushing tackles and break-away 3-D action. It was awarded 1997's Game of the Year by *Electronic Gaming Monthly*, and it was ranked #1 by *Operators* in *Replay* and *Play Meter* Magazine.

But that was last season.

Introducing NFL Blitz '99. Jam-packed with the extras and features you wanted. This MVP adds more muscle to the line-up, with one to four player capability.

It also stars the innovative "Play Editor," which lets players create, personalize, and store their own plays. With an N64 controller pack, they can even design plays at home, and bring them back to your stadium.

As your franchise player, NFL Blitz '99, is in a league of its own. Football will never be the same again.
