What do you want to drive?

Tear up the streets of San Francisco in one of four radical cabs! Modeled after classic American rag tops, these cabs really burn up the asphalt!

How fast can you go?

Pick up passengers and speed them away to their destination. Remember, it's not how you get them there that matters, it's how fast you get them there!

Incredibly detailed graphics!

The first driving game utilizing Sega's hot new Naomi Hardware System.

Adrenaline pumping sound track!

Push the pedal to the metal while you rock to the jams by punk sensations Bad Religion and Offspring. Live action play by play commentary adds extreme reality to an already unbelievable package!

Crazy Taxi, this is one ride you won't forget!
