

CYBER SLED

HEAD TO HEAD COMBAT TO THE EXTREME!

The latest polygon technology and state of the art graphics immerse you in the battle of your life! Awesome images are created utilizing Namco's 3-D polygon graphics. Choose between two different perspectives: beginners can view the battlefield from behind your Cybersled; more advanced players can use the View Point Button to surround yourself with first-person excitement. Choose your CYBERSLED from the 6 sleds available, each having its own unique strengths and weaknesses. Control your Cybersled using "tank-like" controls. Blow away your opponent using your Missiles and Guns. Be careful not to overheat your guns!
