Locations List

NEW MUSIC

TECHNIKA 3 features over 160 songs including tracks from previous titles, the portable franchise, and licensed tracks from smash hit Korean girl group KARA. The huge amount of content in this game is a first for the DJMAX franchise and is sure to keep players happy with all of the new tracks, charts, and courses featured in the game!

CREW CHALLENGE MODE

This new mode can be played individually or with your registered crew to earn bonus points and special unlocks that only crew members can access. This new mode is updated regularly with new challenges and ties directly into the game's level system to provide a long lasting play experience with continuous reward.

CREW RACE

This is a team based versus mode that allows players to create "crews" of up to 10 players from all over the world. New to TECHNIKA 3 is a crew point unlock system that allows players to earn points as a team and spend them on a special section of the Platinum Crew Max Point shop to earn special in game bonuses, icons, exclusive songs and other content.

PLATINUM CREW

Platinum Crew is a free online network utilized by DJMAX TECHNIKA 3 to allow players to post high scores, connect to facebook and twitter, unlock new content and interact with the community. Using a special IC card, players can create their own profile to save scores, participate in crew race, and unlock a plethora of new content using "MAX POINTS" they earn while playing the game. All a location needs to participate is a high speed internet connection with an ethernet cable running directly into the machine. It's safe, secure, and free to play!
