DISTINCTIVE FEATURES OF DREAM HUNTING

- The First Wireless Shooting Gun Game in the World!
- The high precision PCB gives at least a 50% improvement in accuracy versus Wired Shooting Gun Games
- With percussion recoiling, the hunter feels the realism of the shooting experience down to the finest detail
- The single unit embedded cursor key gives full control of all features in one place.
- The gun's lifelikeness gives the hunter an authentic experience in a natural environment
- The action shooting game covers an array of scenarios:
 - Outdoor Hunting
 - Gun Survival
 - Sniper Shooting
 - Sports & Fun Shooting
 - Action Shooting
- Morphing animation makes animals move smoothly as in real life
