

## Welcome to Megatouch 2011.

Our newest Megatouch release features nine new Ion games plus two widescreen-exclusive titles.

2011 delivers fun, bite-sized entertainment experiences that can be played socially on a big screen. It includes new titles built to excite current players, while also adding fresh genres to attract patrons who may have never played a bar-top game before.

### Final Table Hold 'Em

This widescreen-exclusive is the world's first Texas Hold 'Em game to feature Spin Cards. Players quickly responded to the addition by making Final Table Hold 'Em one of the top five most-played games on updated Aurora WS and Rx systems.

### Trix

From the Middle East comes a compelling widescreen-exclusive card game that's both easy to learn and fun to play. Players complete against three opponents in a series of different card games to crown a ruler of the kingdom.

### Little Shop Road Trip

Following the runaway success of Little Shop of Treasures, Megatouch is going on the road with 16 all-new scenes featuring thousands of hidden objects for players to find.

### Word Dojo 2

For close to a decade, Megatouch fans have honed their word-building skills playing the original Dojo game. Its sequel delivers an expanded dictionary, crazy power-ups, enhanced scoring, and an all-new survival round.

### Boxxi Blitz

A combination of speed and strategy is the key to success in this crazy adaptation of a fan favorite. Three box colors allow massive moves that spawn game-changing power-ups and soaring high scores.

### Flick & Kick Football

In this action game, a quick finger-flick decides whether players score a field goal or land in the stands. But this is no ordinary game, and that is no ordinary goal post. The kick is up--and it's good!

### Space Farmer

In this line-drawing game, players manage a fleet of UFOs to capture as many sheep, cows, and chickens as they can, all while avoiding mid-air spacecraft collisions.

### Zombie Cats

In this fun-loving action game, players attempt to successfully escape a city overrun by an undead army of felines.

### Mystery Phraze

This popular word game has been re-invented and given a fresh facelift for 2011. Whether they choose Entertainment, Music, Sports, or General, each of the 24 subcategories are sure to keep players guessing.

### All-New Penthouse Suite

This all-new photo library features the hottest Penthouse models to ever appear on a touchscreen. This suite leaves little to the imagination and includes the first tournament-ready erotic games: Penthouse Panty Bandits and Penthouse Super Boxxi.

## Megatouch 2011, Force Suite

Megatouch 2011 also marks the final software update for Force systems. Little Shop of Treasures, the smash-hit of 2010 is now on Force and joins Road Trip, Boxxi Blitz, and an all-new Penthouse Suite to create a powerful punch for updated machines. 2011 offers a tremendous value to operators who haven't upgraded in a couple of years and is only available for a limited time.

- Upgrade from Force 2009, get up to 17 New Games
- Upgrade from Force 2008, get up to 30 New Games
- Upgrade from Force 2007, get up to 46 New Games
- Upgrade from Force 2006, get up to 52 New Games

## Connectivity made easy.

Getting your Megatouch online has never been easier or more rewarding. Our new step-by-step **Connection Wizard** has simplified the connection process for wireless, wired, and dial-up Ion machines.

AMI engineers redesigned the entire process for simplicity and ease of use. No more confusing screens. No more bouncing around. Operators can even register a game on-location! All that's needed is a broadband connection.

## Online benefits, free of charge.

Introduced in 2009, **MegaNet® Core** allows FREE access to dozens of online features aimed at making route management a breeze.

**AMI Access**, our newest tool, empowers YOU to connect, view, and take live control of any broadband-connected Ion running 2011 on your route — right from your own PC or Mac! Just jump online, log in using your MegaNet ID, and make changes live, in real-time. AMI Access even notifies you if the game is in use! How cool is that?

## Let's talk music.

2011 makes it easier than ever to sync your Megatouch and jukebox. Enable players to browse and order music without leaving their bar stool — it's FREE and easy to set up!

An AMI jukebox connected to a Megatouch can earn up to 15% more music revenue!

## Stay up to date, automatically.

Location visits to install software can be a thing of the past. Our 4-year **Broadband Subscription Model** is now available for broadband-connected Rx and Aurora Widescreens running 2009 software or newer.

After the first year, \$25 per month not only ensures your game always has the latest and greatest software, but also guarantees your hard drive for the entire duration of your contract.

Operators are given access to all the free online benefits of MegaNet, plus **Tournamaxx®** player tournaments — a \$300 savings!

Tournamaxx enables your players to compete on local, regional, and national levels while playing their favorite games — and increases coin-drop up to 32%!
