TAP INTO HIGHER EARNINGS!

ReRAVE™

ReRave is an all new interactive music experience like no other! ReRave breaks the barrier of old fashioned "scrolling" and "matching symbols" that are typical to other rhythm games. It features a new innovative and unique "Patent Pending" game design.

Other features include:

- Proudly Designed & Manufactured in the U.S.A.
- Durable construction with easy-to-replace parts
- Default "Easy" mode allows users of all ages and skill levels to enjoy gameplay
- Fullscreen & Halfscreen play modes
- 2 player "Head-to-Head" gameplay increases revenue!
- Interactive LED Light Show enhances the play experience
- Large 42" HD Multitouch Screen creates full player immersion
A FIRST in the music game genre!
- Awesome 1000 WATT Sound System with headphone ports that allow for a user personalized sound experience
- Global network rankings as well as local rankings help draw competition. Network enabled and registered machines receive software updates with increased revenue
- Player profiles interface with ReRave iOS (Now available in the Apple App Store)
- Customized player profiles via PIN entry for Individual score tracking. Players can create their own profile via www.ReRave.com
- New songs and sequences added monthly and made available to all ReRave Machines
FREE CONTENT UPDATES!
- Song control filters allow specific songs you want (or don't want) at your location
- Fully supported language translations and in-game support for tokens, cards or coins
- Adjustable time (per screen) settings allow operators to maximize income potential for their location.
- Detailed collections statistics.
