Remarks	

This Patent-Pending specialty crane is perfect for MP4 Players, jewelry, watches, candy, high dollar electronics, Zippo's and more. This small footprint yields a high return as it fits anywhere a gumball machine or a payphone would fit. It's perfect in a truck stop, a restaurant lobby or a street location like a bar or laundromat. The games can be placed kiosk-style with three of them back to back in a triangle in an Arcade-FEC setting to give a splash look and to vend three different types of merchandise. This game has been so successful that a test of two games in the Summer of 2009 resulted in an initial order of 200 Little Giga's from a National truck stop company that was making the test!

The Little Giga comes with a Mars Bill Acceptor and the stand but it can also be removed from the stand for a wall mounting option.

Little Giga's are currently in production and available now.
