HD DIGITAL MUSIC STREAMING STATION

JVL

boom

By pairing the BOOM with our proprietary Media Stream, JVL has created the complete **HD Digital Music Streaming Station** and revolutionized the way music is **selected, ordered, and delivered** in public settings.

Unlike traditional jukeboxes, which stores music internally on CDs or memory media, the *BOOM X Media Stream* content is external, so it is **always expanding and constantly kept up to date**.

An intuitive graphical user interface and **intelligent-music-search function** allows users to quickly access songs from a vast library of 3.5 million choices and have their selections **instantaneously streamed, on demand, and in real-time**.

Couldn't possibly get simpler.....?!

Unleash the **BOOM!!**

MEDIA STREAM

ANY MUSIC NOW

JBL

MEDIA STREAM

With countless songs available on demand, Media Stream plays your music... when you want it.

Media Stream is a device that, when paired with the ECHO uses a broadband internet connection to stream digital music from an off-site server to a local audio system. Unlike traditional jukeboxes, which store their songs internally on CDs or hard drives, Media Stream's content is external, so it is constantly expanding and always kept up to date.

Building these capabilities into Media Stream required the convergence of many different innovations and technologies. JVL is proud to be the first company to introduce this next-generation music delivery platform to the marketplace.

MEDIA STREAM FEATURES

- Live, streaming music with NO PREMIUM CHARGES
- Access to countless songs
- Connects to music server wirelessly
- Can connect to multiple ECHOs
- Flexible song pricing can be set for time of day, date, special occasions, etc...
- ECHO can be quickly configured for either dedicated game or music play
- Wireless remote control included
- Color LCD screen on front panel
- Automatic date and time synchronization via network
- Inputs for auxiliary audio sources, including two USB connectors
- Color-coded and labeled external connectors

The JVL logo is displayed in a bold, blue, sans-serif font. It is positioned in the bottom right corner of the page, partially overlapping the white background and the edge of a device. The letters are thick and closely spaced, with a slight shadow effect.

PROFIT FROM MUSIC THE JVL WAY!

NO LONG TERM COMMITMENT

NO CAPITAL OUTLAY

Connect your JVL ECHO to the Media Stream to enjoy multiple sources, while enhancing your customers' entertainment experience.

We take our games *SERIOUSLY*
