

Laserstar® Nostalgia

They just don't make 'em like they used to, or at least the competition doesn't. Each Nostalgia is created with hand-rubbed wood and chrome-plated castings, as well as colorful, bubbling tubes and a full spectrum of lights. Inside, the Nostalgia is anything but traditional. It boasts an advanced CD sound system, featuring Rowe International's 250-watt amplifier with dual 7-band equalizer. The Nostalgia is where past meets present.

For more information about the Nostalgia, contact your Rowe International distributor.
