

icon™ apollo

Icon Apollo is powered by the brand new ICON 2 IPAC, packing it full of high performance components and features. The focal point and main selling feature is the huge 40" Samsung screen which immerses the user within the interface. The display is divided into 3 core sections, User interface, Data Belt, and Music Video sections.

The Data Belt displays live information from RSS feeds, allowing such information as live weather, news and sports results to be fed directly onto the screen. For the first time all music videos have the space to play on screen. The dedicated music video section at the top will allow users to see their videos upon selection.

technical information

I-PAC

- Motherboard:** KT690/AV690
Processor: AMD Turion™ X2 Dual Core
Memory: 1GB Crucial DDR2 667 MHz
Display: 40" Samsung / AUO TFT
Touchglass: Projective Capacitive Touchscreen
Graphics: Integrated ATI Radeon X1250
Hard Drive: 500GB SATA Western Digital
Updates: DVD Drive & USB Ports
Music: 40,000 Tracks (80,000 Online *)
** Online & 3G Options available*

TV Output + TV Throughput.

AMPLIFIER

RMS Power Output

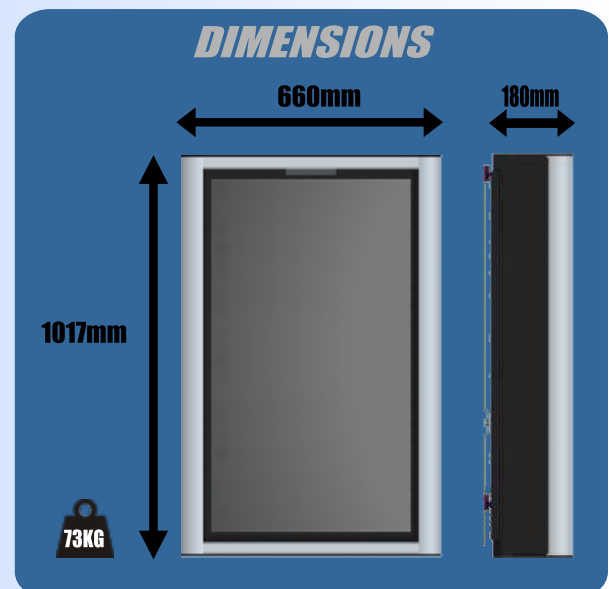

@ 8 ohms: 2 ch. x 220W = 440W rms

@ 4 ohms: 2 ch. x 300W = 600W rms

Peak Power Output

@ 8 ohms: 2 ch. x 1750W = 3500W Per Amplifier

@ 4 ohms: 2 ch. x 2400W = 4800W Per Amplifier

icon™ APOLLO

At the pinnacle of technological initiatives NSM have once again pushed the frontier of digital music systems with NSM ICON™ APOLLO. This new premium jukebox is set to be the flagship of the fleet, boasting some phenomenal specifications and once again raising the bar within the industry.

Icon™ Apollo is powered by the brand new ICON™ 2 IPAC, packing it full of high performance components and features. The focal point and main selling feature is the huge 40" Samsung screen which immerses the user within the interface. The display is divided into 3 core sections, User interface, Data Belt, and Music Video sections.
