Pedestal designed to complement the Princess

The pedestal can be used in various ways – as storage for CD covers, an additional HIFI system, as a mini bar or ..., the sky's the limit.

Pedestal with subwoofer system

A special door insert allows the pedestal to be used as a compact loudspeaker system.

The subwoofer system with two satellites is installed by simply pushing into position in the pedestal. Both satellite speakers can be removed and be used separately, either fixed to the wall or free standing.
