

CD Wallette

Nothing is more classic Americana than the Rowe International CD Wallette. This attractive little jukebox selector works with Rowe International CD jukeboxes and fits most existing brackets. It features selections from up to 50 CDs at the touch of a button, and offers the option of accepting different coin denominations. Best of all, owners control the pricing through the parent phonograph, which also controls the lockouts, premiums, and most popular selections.

For more information about the CD Wallette, contact your Rowe International distributor.
