**The Vintage 850 Peacock –
The exclusive jukebox with the
charm of the 'Golden Age'**

WURLITZER®

In the year 1941 the famous Wurlitzer designer Paul Fuller created the Model 850 (Peacock), considered by many experts as the most beautiful jukebox of the 'Golden Age'.

With the launch of this marvellous replica jukebox, Wurlitzer continues the successful series of classic Wurlitzer models.

The fascinating colour rotation in the peacock picture, the extravagantly designed cabinet with magnificent wooden surface and the solid castings in the original design make this rediscovery a real collector's dream.
