

A WORLD OF ANIMALS

Let's Go Safari takes kids on a fun-filled educational journey through many wildlife landscapes to learn all about the animal kingdom! After meeting some of the many animals in the game, players get to take part in a quiz to see how much they've learned. With multiple areas, routes and animals as well as easy to navigate gameplay and lots of fun interactive buttons to press, Let's Go Safari offers young players a lot of reasons to come back and play again.
