What's the "Sexy" on Beer Ball? [FAQ'S]

Q. How much does it cost?
A. Beer Ball's factory MSRP is $4,995 plus options. Please contact your local coin-op game distributor and operator for more information.

Q. What is the price per play?
A. The Beer Ball leaves the factory set to $1.00 per play. So far, most operators are keeping them at $1.00 however some have determined $.50 per play works best for their particular location. $1.00 leaves a little more room to offer cool prizes but you can also make it work at $.50 per play as well.

Q. Is it "live" or "on-line"?
A. Currently, you can access the Beer Ball via a wireless INTRANET router in order to set up and administer leagues, run tournaments, change the prizes and prize levels, and rotate advertisements. However this can only be done inside the location and cannot be accessed remotely via the internet.

Q. Can I place advertisements on my game?
A. Yes, you can upload files to the game using the Beer Ball Management site via the intranet router.

Beer Ball ® PATENT PENDING

The Future of Bar Leagues!

Let the good times roll with Bay Tek's innovative bar-piece, Beer Ball. Men and women all over enjoy the nostalgic and social game play that Beer Ball offers. The 22-inch flat screen display allows up to four players to roll head-to-head for bragging rights of high score. The software package included makes it easy for operators and locations to run weekly Beer Ball leagues or bracketed tournaments. Don't stop there—add the thermal printer option and give away prizes for certain set scores. For example, roll a 350 for a drink special or a 700 for a Beer Ball t-shirt!
