

PAC-MAN CHOMP MANIA

Over 30 years later, the Pac is Back and better than ever! For the first time, game creators NAMCO and Raw Thrills have teamed up to create Pac-Man Chomp Mania. This new video redemption piece brings back the classic Pac-Man game concept but now rewards players with tickets or a gift card. Players acquire points by munching on as many of the familiar pac-dots and fruits as they can while being chased by the ghosts; Inky, Blinky, Pinky, and Clyde. Grabbing the Power Pellets and eating the blue ghosts will earn players extra points. If the level is cleared, the player advances to a bonus stage where Pac-Man navigates through the pellet-less maze and tries to enter the ghost house where the "PAC-POT" sits all while evading the four chasing ghosts. If successful in entering the ghost house, players win the "PAC-POT" and are treated with a mesmerizing Pac-Man animation. Options for the "PAC-POT" can include tickets or gift cards*. The cabinet is beautifully lit from top to bottom with multi-colored LEDs as well as a spectacular LED marquee that scrolls the classic 8-bit Pac-Man animation.

*A gift card dispenser can be added instead of a ticket dispenser for an additional charge.
