

PLANTS VS. ZOMBIES

The Last Stand!

Plants vs. Zombies™, developed by PopCap® Games the creators of the top puzzle game Bejeweled®, is coming to the arcade! Sega's Plants vs. Zombies™ The Last Stand puts the player at the control of a cabinet-mounted Peashooter that fires peas - yes, peas - to stop advancing waves of zombies. If any zombie crosses the players "last line of defense," the game is over. As zombies are destroyed, tickets are paid out. If all Zombie Waves are destroyed, the player wins the bonus.

A unique feature of Plants vs. Zombies™ The Last Stand is the end-of-game, video displayed QR Code, which allows players to register their score online in a global high-score table. Players can also earn unlock codes that can then be used to change the game in crazy new ways!
