

TEETER... TOTTOT... CASTLE

Let's Build the Castle!

Children and family friendly design

Really simple and intuitive game to play

Easy setup and Payout stability is attained by using reliable high tech system

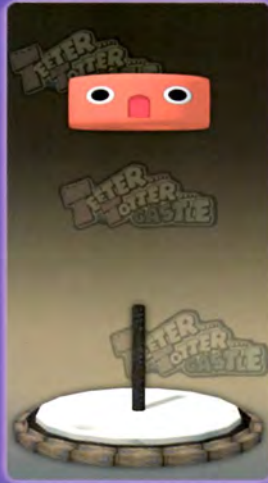

Game of Skill, easy to maintain, Suitable for all ages

How to play

“ Players simply press the button to release/drop blocks on top of each other when the moving block comes in the middle. According to the number of blocks built up, different tickets will be given.”

Help us build the castle!

Once upon a time, in a faraway land called Tinka Tinka, there lived a little naughty magician Luke and a kindhearted Princess Ulala.

One day, Luke was trying a new lightning magic trick and accidentally destroyed Princess' castle.

Saddened by the loss, Princess Ulala cried and cried. Luke recalled a trick, his Master used to practice with magic stones.

Luke borrowed the magic stones but needed some help!

Let us help Luke in building the castle for pretty Princess Ulala!

Advanced 3D Physical Engine is used in designing this game and players will feel **REALISTIC** 3D objects and enjoy **VIBRANT** movements while playing the game

The **BIG** play button with **LED** light looks like a mysterious ball and adds to fun!
