

HYPERSHOOT

We've reinvented arcade basketball to offer an innovative and rewarding game experience that guests just can't seem to walk past. The interactive light tunnel, unique hoop and real time sports commentary really add that WOW to your arcade collection.

- Brilliant interactive light tunnel and real time sports commentary
- As a twin its unique gameplay is right at home in your midway wall
- Extra points for scoring in quick succession
- Linked game play for multi-player competition
- Optional "Bonus Tickets" for linked game play
- Optional overhead sign

Width: 43.07" / 109.4cm

Height: 113.39" / 288.0cm

Depth: 122.05" / 310.0cm

Weight: 882lbs / 400kg

HYPER ACTION SERIES

Whether in attract or game play modes, the unique lighting effects of HYPERShoot are impossible for players to miss. The light tunnel follows the flight of the ball like a comet trail, accompanied by live sports commentary, making every throw fun and rewarding.

HYPERShoot can be linked up to 8 player competition. When space is limited the twin cabinet configuration is just as attractive alongside classic midway games like Alley Bowlers and Knock Downs.
