

# JUMP STREET

The players always want something new in the favorite styles of fun. That is why we created iJump Street, a street basketball in an unique version.

- › New 'street' theme with exclusive graphic designs;
- › New basket that moves vertically in 3 height levels, providing more fun and challenge;
- › New gameplay including phases and extra points, more exciting than ever;
- › New siren signals the beginning and end of each phase;
- › New multiplayer button to challenge your friends, making the game more competitive linking it with other machine;
- › New powerful speakers in 'Boombox' style filled with exciting music and sound effects;
- › 2 bars of bright lights in the tower: to indicate the remaining points to the next phase and the remaining time to end the phase;
- › Super LED displays on the tower show the score, record and messages to the players about score and phases;
- › Operated by coin/token for easy collection and prepared for redemption;
