## Penalty Shot

Become the next Soccer phenomenon, as you get ready and take aim at Penalty Shot DX. This computerized indoor kicking game machine will bring an energetic aura and compelling excitement in every location. With patent spring system on the ball holder and urethane covers, Penalty Shot DX promises fun and safety to all ages.

When players kick the soccer ball that is attached to a patent spring system, they will experience the true magnitude of an epic kick without jeopardizing their safety. With this new system, players would not have to worry about kicking a metal machine accidentally but they will be able to concentrate on the ball. Vivid displays of players scores are portrayed after each kick and when a previous high score is beat, an addition bonus play is granted to the winner.

Penalty Shot is brilliantly designed with energetic colors and splendid LED lighting system that delivers an uncompromising, charismatic presence in any environment. Superb sound quality along with its attractive decor, Penalty Shot offers its players to experience a glimpse of glory where only soccer superstars display.
