

MAXIMIZE YOUR SMALL SPACES FOR PROFIT!

Rollerball™
SMALL BALL SYSTEM

AS SEEN ON TV

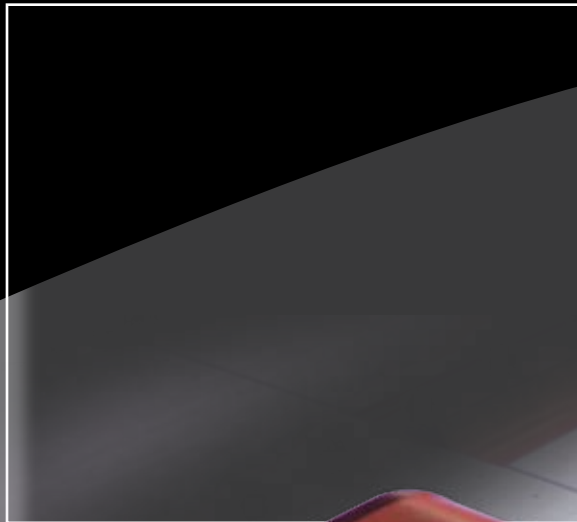

USA BOWLING CORPORATION

ABC, Sundays 8 -7 Central

Rollerball™ **SMALL BALL SYSTEM**

Mini-Bowling has established itself as the most dynamic and innovative addition to almost all entertainment applications. Because of this, US Bowling Corporation proudly introduces Rollerball - the small ball system that will have a big impact on your bottom line.

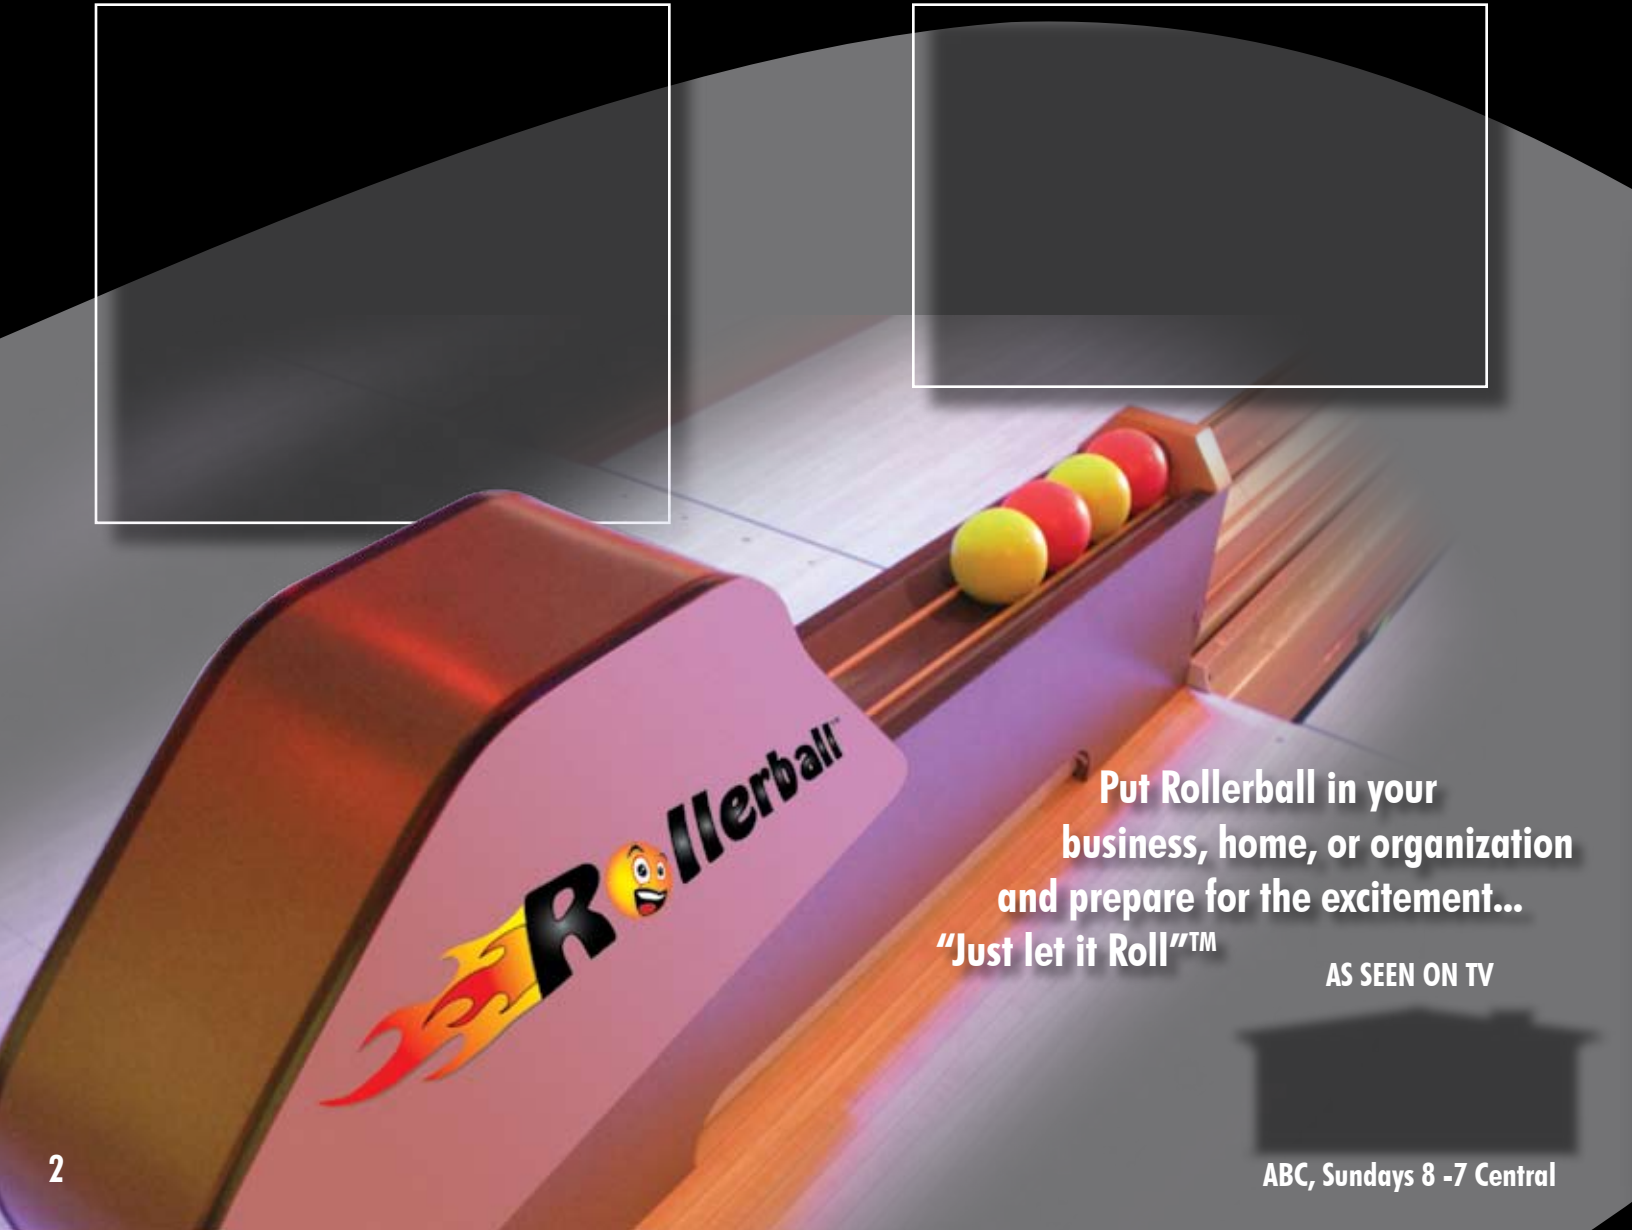

The formula is simple: minimal space, virtually no maintenance, and an exciting new experience. Your customers will enjoy our glow pattern over our classic wood-grain synthetic lanes, and will be awed by our stunning 32" LCD monitors that come standard in every Rollerball package. Unlike many systems, Rollerball is based around a full, state-of-the-art scoring system. And, your little bowlers can avoid gutter balls with our automatic bumpers that pop up at the simple push of a button.

Rollerball has become an over-performing profit center in many different locations. It takes up very little space, requires almost no attention, and really makes a difference on your overall revenue stream.

And, you can rest easy: Rollerball is backed by the most comprehensive and liberal warranty in the industry — everything from the scoring system to the pinsetters and lanes are covered.

Whether you're looking for the perfect supplement to your entertainment center, or for a way to maximize a small unused space, Rollerball is the most exciting and versatile profit center on the market.

**Put Rollerball in your
business, home, or organization
and prepare for the excitement...
"Just let it Roll"™**

VIDEO MASKING UNITS

SIDEWALL GRAPHICS

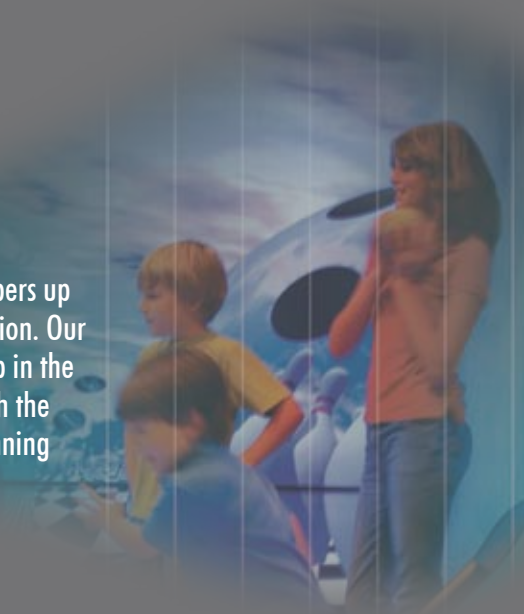

Theme your walls with our enhanced glow graphics and watch your facility come alive!

Mega Media Mask - 4 Lanes
2 Lane also available

AUTOMATIC BUMPERS

Z-BUMP: A Guaranteed HIT!
Pneumatic pistons drive your bumpers up and down for reliable, fail-safe action. Our flexible rails provide the best bump in the biz and you won't have to deal with the hassle of under-lane repairs or running power under the foundation.

GRAPHIC SELECTIONS

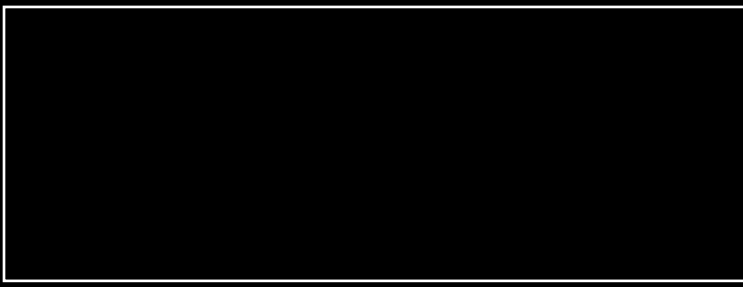

US Bowling Enhanced Glow Graphics. US Bowling Corporation has developed a proprietary process to create the Enhanced Glow Experience. These graphics are without a doubt the brightest in the business. And their intensity won't quit on you – they have the best longevity of any glow graphic in the industry. And even better yet, you can supply us with your logo or custom graphic and we will print and color enhance it for you.

AUDIO VIDEO LIGHTING SYSTEMS

Intelligent Lighting & Sound.

A professional lighting and sound package gives your bowlers a unique experience in a unique environment. It transforms your Rollerball lanes into a high-energy, exciting environment; one that your customers are willing to pay a premium for. But only the right fixtures will make this transformation a successful one.

LATERAL SIDE SAFETY GUARDS

- No shoes, no waiting, no hassles
- Fast turnover and quick income
- Great additional profit center
- Take your birthday parties to the next level with a game that is easy for children
- A perfect addition to a home, arcade area, amusement center, business or any other area with a little extra space
- Maintenance is a cinch: our top-of-the-line string pinsetters do all of the work for you
