FASTCORP

THE LEADER IN FROZEN VENDING TECHNOLOGY LLC

ice cream ♦ ice cream ♦ ice cream

The Evolution dedicated ice cream vendors are 4th generation merchandisers in a successful line of Fastcorp frozen machines. Taking the heralded vacuum robot & chest freezer design to entirely new heights, the Evolution delivers even more versatility, reliability & energy efficient performance than its predecessors. With new cutting edge robotics, highly integrated controller system, and a completely re-engineered high performance cabinet, Fastcorp is proud to say that the Evolution has set new standards in frozen vending. On the front lines of a growing ecological movement, the Evolution will continue to raise the bar on energy efficiency, driving home the Fastcorp mantra "Go Green Go Fastcorp". Never losing focus on what counts - product integrity and quality, Fastcorp continues to be the only frozen technology used by major ice cream manufacturers for their branded machine programs.

Features & Specifications:

- High-impact backlit merchandising system featuring large menu cards
- Highly integrated controller board
- MDB compliant
- DEX audit functions
- Card reader & cashless system compatible
- Simple programming
 - position robot manually and save
 - intuitive & menu-driven
- Comprehensive self-diagnostic features
- Micro SD software upgrade capabilities
- Guaranteed product delivery
- Ergonomically engineered for ease of use & serviceability
- Modular SCARA robot design, can be replaced in under 10 min
- Most energy efficient full-size frozen vendor
- Internal chest freezer design
- No moving parts in the freezer increasing mechanical reliability
- Large product chute - can handle greater variety of package sizes
- ETL compliant
- Indoor/outdoor capable
- Electrical 115VAC, 60Hz, 9.7Amp
- 24VDC vacuum motor
- Dimensions H-72", W-40", D-35"
- Weight 600 lbs
- Refrigerant R134a (5.0oz/150g)
