## NOW YOU'RE GOING PLACES!

The cruise of a newsworld will bring deep thrills of Atlanta. A two-lane street will feel like the freeway. Because Cruisin' Exotica is here!

This third Cruisin' game has 12 crazy new tracks, the new Zeus 2 hardware, killer graphics and a massive size.

But be impressed as the game itself is. We'll discuss what really matters. Cool, hard earnings.

In 1994, Cruisin' USA was replaced and in 1996 Cruisin' World. Both were named AMCA Game of the Year. To date, the two combined have collected over one billion dollars worth of cash. Fact is, the average Cruisin' game pays for itself just three times over.

Which means they are incredibly popular with the players, and extremely successful with the owners who want the best for their quarters.
