

You definitely won't be dozing trying to save the city that never sleeps!

There are two missions to choose from - the goal is either to release the headquarters building of the United Nations or release the entire island of Manhattan.

Incredible scenes take place in:

Times Square

Attack the reinforcements of the terrorists gathering at Times Square!

Mid-Town

There is an intense city battle right next to Rockefeller Center. Gun Blade can cruise across New York skyscrapers and destroy the terrorists' floating fortress mid-air!

United Nations Building

Enter the open space in front of the building to find the armed androids waiting for fierce combat!

Statue of Liberty

Chase the enemy's carrier as you fly by the Statue of Liberty herself!

GUNBLADE

Special Air Assault Force

NY

Are you ready for Rush Hour?

• Gun Blade is available for two players, with two recoilable machine guns for awesome battles!

• **Authentic graphics!**

The designers actually went to New York to get the buildings and locations of the city exactly right - from Times Square to 5th Avenue to the UN Building!

• Never before seen representation of a dynamic bomb explosion in a 3-D gun shooting game!

• These bad guys are frighteningly dangerous because they have AI, or Artificial Intelligence. This is a first for gun shooting games! Watch out!

Your camera angle changes freely on a 50 inch projection monitor, providing high resolution action!

GUN BLADE NY has a dedicated cabinet with 50-inch projection display and recoilable machine guns!
