

ECI-10

THE WORLD'S FIRST AND ONLY **HD**
TOUCHSCREEN ENTERTAINMENT SYSTEM

ECHO-10

A technological *tour de force*, Echo is the only countertop game in the world to feature a high-definition (HD) monitor, a state-of-the-art 3D graphics processor, and a five-speaker hi-fi system.

Immerse yourself in a three-dimensional world that engages your senses with razor-sharp images, crystal-clear sound, and an unrivalled gaming experience. Glide through Echo's intuitive graphical user interface to access more than 140 different games encompassing every genre, from action and strategy, to cards, quizzes and puzzles - something to satisfy every interest and mood.

Beyond cutting-edge technology, sleek styling and addictive game play, Echo also offers the option of music on demand with JVL's revolutionary Media Stream system. With countless of songs available instantly at your fingertips, enjoying your favorite music has never been so much fun!

Same great countertop, ECHO'd in the name.

ECHO FEATURES:

- Super-bright, 22", 16 : 9 high-definition LCD monitor
- High-performance game board with dedicated 3D graphics engine
- High-fidelity, tri-band audio system with five speakers, including an on-board subwoofer, and 25 watts of power
- Industry-first, dynamic graphical user interface
- High-speed 4 GB Secure Digital storage media
- Integrated connectivity to Media Stream's music delivery network
- Optimized cabinet design significantly reduces thermal buildup and associated fan noise
- Easy access to internal components for simplified maintenance
