

魔斬

MAZAN™

Flash of the Blade

All sword movement is motion captured and replicated on a deluxe 50-inch monitor.

Three diverse and expansive stages with their vicious bosses await the player's challenge.

Slashing objects within the game can reveal hidden routes and items.

Parry incoming attacks with your sword. Once you have parried the attack, thrust their weapon away to stagger them. Staggered enemies take additional damage.

Our unique ranking and entry system ensures that no two entries will ever be the same. Players can use this level of customization and creativity to reflect their own persona within the game.
