The Polar Boars attack on the try track.

Moto Frenzy is a ride-on simulator for one player featuring authentic motorcycle look and fael. Two independent motors give full-motion action that respond to player control and provide feedback from the track and obstacles on the screen. The bike leans, pivots and does wheelies. The realistic handlebar controls, add to the simulation.

To maximize earnings, operators can fink up to two units for 2-player, head-to-head competition.

With two players in the race, both are allowed to continue play as long as one player crosses the finish line within the time allowed.
