Depth: 14" / 35cm
Weight: 479 lbs / 217 kg

This is *it*. Realistic, rough and reckless racing on eight highly imaginative off-road tracks, each with unique challenges. Get behind the wheel of one of eight selectable or four hidden monster vehicles and then brace yourself for an unrivaled driving adventure. Secret paths, short cuts, flying obstacles, hidden "Nitro" power-ups, end-of-game performance ratings and gameplay improvement tips are all designed to ensure repeat play in novice players and experts alike. And now players can choose between standard racing, linked racing or the new two-player team racing option, **Capture the Flag**, that adds a whole new dynamic to gameplay intensity. The greatest aspect of Off-Road Thunder, however, exists in the tracks themselves, designed to take you to the limits of your imagination and beyond.

AIR TIME

Take the leap from dirt track stadium to seaside beach racing.

ALPINE AIR

Maneuver the slippery snow and ice conditions on this alpine course.

CARNIE O' CHAOS

Race around the carnival grounds and leap through the rings of fire.

CLIFF HANGER

Feel the thrill of an extreme drop as you race through this desert course.

DOUBLE BARREL

Compete at night in a dirt stadium with short cuts through a parking garage.

HIGH OCTANE

This track set in an industrial park, throws you from a dirt track to various levels of an abandoned warehouse.

OVER UNDER

Experience the heartland of America in this race through cornfields and around a farm.

TUNNEL VISION

You're up against Mother Nature in this course that turns against you with dangerous winds and torrential rain.

MIDWAY
