

ReRave PLUS

Over 100 songs
Online Ranking
Improved Gameplay
Ticket Options

Tweet

An interactive experience like no other!

Breaks the barrier of scrolling and „matching“ display methods that are typically found in other music game products from the last decade.

Unique innovative gameplay that is both a challenge for experts, and fun for new players of all ages.

ReRave Plus features

• New Cabinet Design

Newly designed smaller cabinet based on location feedback with outstanding hifi sound system and dual monitor. Top: 32" HD, Bottom: 26" HD

• Complete Redesign

- Redesigned user friendly UI
- Completely redesigned software engine with 90% new core logic
- New CPU Hardware („ReBox“ system)

• New Songs

Over 100 songs and 20 new ReRave Plus Exclusives including Captain Jack (Captain Jack), Hard Fast Disco (Darwin) and Zenith (Sanxion7).

• Improved Gameplay

New gameplay features including

- New tap types
- New note skins

• Ticket Options

Ticket Options are configurable in the Operator Menu. You can set the payout settings based on user score performance, or award tickets for simply playing. Combine either or be as specific as you want.

• Network Features

- Access to ReRave's global network including free content updates and new songs via Internet
- Interfaces with www.rerave.com and ReRave Plus mobile (available for Android in 2014) for player profile tracking
- Game also operates without a network connection

• Online Ranking

Machine Ranking allows each machine to compete and rank for top position. Each location is listed on www.rerave.com to help attract players to the location. Individual players can compare their performance online with Global Player Ranking.

... and even more

- High quality 1000 watt sound system – one of the best sounding sound systems in a music game
- Two independent headphones ports with dedicated volume control
- External adjustable volume control to allow independent hardware volume control for the cabinet sound system without having an effect on the player headphone volume (s)
- Newest generation IR touch technology
- Redemption Ticket Support
- On-screen support for „Token, Coin, or Swipe Card“
- Adjustable time and menu flow for refined control of the game time for the player
- Song Manager to give the operator complete control over the content available in the game
- Mature Content Filter to filter music with questionable content or lyrics
- International Filter to filter music content that is not from the same region
- New Wild Difficulty to appeal to experienced players desiring to challenge their skills
- New on screen „Finger & Hand“ visual display to help new players understand gameplay
- Extremely competitive price point
