Simple & Powerful Interface

Easy Cabinet Configuration

ULTRACADE was designed with the operator in mind! The easy-to-use operator interface enables the operator to load new games and adjust parameters such as coin settings and level of difficulty.

Automatically Track Earnings

ULTRACADE's sophisticated accounting engine has the ability to track earnings and game play times for each game and can display the results sorted by name, manufacturer or earnings. Also, ULTRACADE can save earnings to a floppy disk for use with spreadsheet and financial applications.

ULTRACADE Games

ULTRACADE is the only arcade system that supports the hundreds of classic games from the biggest names in the arcade industry.

These games are proven top earners that appeal to all ages and deliver consistent and continuous profits. All ULTRACADE games are installed as easy as 1, 2, 3.

1. Insert the CD.
2. Enter the serial number.
3. Start earning money!

OWN AN ENTIRE ARCADE IN ONE CABINET!

The easy-to-use operator menus give access to coin and game settings.

Configure the menu to display any number of games, from 1 to 1000!
