UltraCade Universal Conversion Kit

UltraCade is the revolutionary multi-game arcade system from HyperWare that comes as a universal conversion kit that transforms your existing cabinet into the ultimate multi-game arcade machine. UltraCade systems come preloaded with 86 games! With these proven titles and the library growing all the time, your UltraCade system is sure to start earning right out of the box.

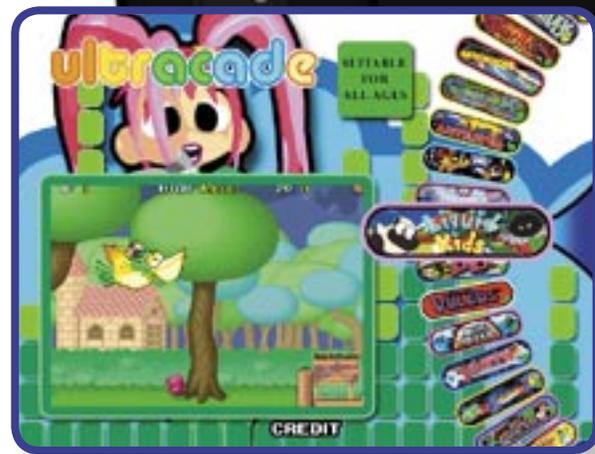

UltraCade Universal Conversion Kit is an easy and inexpensive way to make your dead wood earn again! With the flexibility and scalability of the UltraCade system, there's no limit to the amount of games you can load on a single machine!

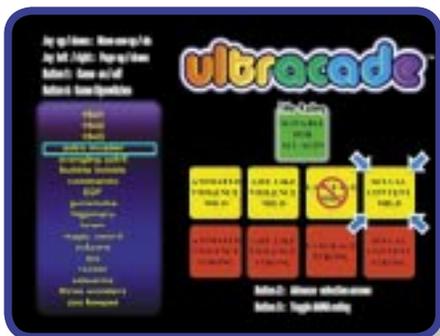

The UltraCade Universal Conversion Kit comes complete with everything you need to refurbish your existing JAMMA compatible cabinet including a complete set of decals, marquee, side panels and control panel overlay, a ruggedized multi-game computer system with JAMMA connector for plug 'n' play integration into existing arcade cabinets, mounting brackets for vertical or shelf mounting positions, a new JAMMA harness, new buttons and joysticks, installation and instruction manuals, UltraCade system and gamepack CD-ROMs, and video resolution dongles.

The UltraCade Universal Conversion Kit works with all types of cabinets and monitors including CGA (low res 15.75 KHz), EGA (medium res 24.5 KHz) and VGA (high res 31 KHz) in vertical or horizontal modes. Simply install the kit into *any* JAMMA compatible arcade cabinet and you're done! All that's left to do is collect the earnings!

UltraCade Games

UltraCade is the only arcade system that supports the hundreds of classic games from the biggest names in the arcade industry. These games are proven top earners that appeal to all ages and deliver consistent and continuous profits. All UltraCade games are installed as easy as 1, 2, 3. 1) Simply insert the CD, 2) enter the serial number, 3) start earning money. A single UltraCade can be loaded with hundreds of games - OWN AN ENTIRE ARCADE IN ONE CABINET!

Easy Cabinet Configuration

UltraCade was designed with the operator in mind! The easy-to-use operator interface enables the operator to load new games, show or hide individual games, sort the games by their AAMA rating or sort by earnings using the patent pending Intelli-Earn™ feature. The more money a particular game in a locations earns, the more often Intelli-Earn™ cycles that games attract mode. The Operator can also adjust parameters such as coin settings and level of difficulty. UltraCade supports vertical and horizontal monitor configurations as well as single player (counter top) and cocktail table modes. In cocktail mode, the screen automatically flips in 2 player games!

UltraCade's sophisticated accounting engine has the ability to track earnings for each game and can display the results sorted by name, manufacturer or earnings. UltraCade can save earnings to a floppy disk for use with spreadsheet and financial applications.

Easy Testing Features

With UltraCade's diagnostics engine, troubleshooting is a snap! From the easy to use operator interface, the operator can test all the buttons, joysticks, sound and the monitor. The entire JAMMA harness can also be displayed graphically on screen to help detect shorts as well as faulty components or wiring.
