THE MULTI-GAME SYSTEM FOR COIN-OP

ULTRACADE is a new multi-game system that puts multiple games in one cabinet, and multiple choices in the hands of the operator and the players. Powered by Quantum3D's Graphite™, ULTRACADE features a host of great titles licensed from industry leaders. Quantum3D's affordable line of low-cost game pack CDs enable operators to add games to their ULTRACADE system with ease, maximizing earnings year after year. ULTRACADE doesn't put a cabinet in your arcade: it puts an arcade in your cabinet.

Players choose games through on-screen graphics

Operators use on-screen menus to choose games and configure system

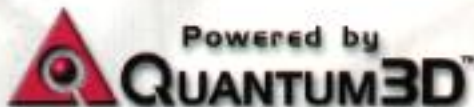

ULTRACADE runs classic and new titles in a multi-game format

Easy to play, operate, and upgrade

Strong, consistent earnings because proven game titles appeal to all ages
