

Vampire Night™

YOU WOULDN'T DARE BE CAUGHT AFTER DARK... WOULD YOU?

- All Vampires have a "weak point" - aim well.... Your life depends on it!
- Rescue victims before they change into Vampires by shooting their "sarcoma."
- Rescued victims provide players with secret codes and clues to hidden passageways.
- Hidden within special objects are life and score bonuses.

VAMPIRE NIGHT is a 1 or 2 player dedicated game featuring a 29" screen. This product utilizes System 246 coin-op hardware based on the graphic engine of the PlayStation 2. The vibrant graphics and on screen special effects are like none you've ever seen before.

You must defeat all the Vampires in each of the six stages: Snow, Stone, Fire, Darkness, Water and Moon. Without fearless Vampire Hunters like you - the world will be overrun by bloodthirsty Vampires.

You can save the world, if you're not too afraid.

Specifications:
