One of the exciting new features in VT4 is the 'Match Momentum Gauge' making for more dramatic matches. Build up your gauge over time as you stay true to the play style of your player. Then revel in your form as your player grows in confidence, allowing them to play shots mere mortals can only dream about.

Also new to VT4 is the addition of fun filled tennis mini games which can be played with up to four players. These mini games give players a fun alternative to the tournament mode and also helps players improve their game at the same time.
