

**SEGA**™ Serves Up Aces  
with

# Virtua Tennis!

*Sega Sports serves up red-hot action with Virtua Tennis! Choose from some of the world's best ATP professional players!*

Sega's powerful Naomi hardware system delivers graphics and game play that blur the line between fantasy and reality! Smash and dash, dump shots, shoestring saves, cross-court volleys and many other exciting tennis shots are painstakingly reproduced with clarity and precision on a 31 kHz 29" high resolution monitor!

Game play begins with one player putting the ball in play by hitting the serve button. A power meter determines how hard you serve the ball! Hit it at peak power for maximum velocity!

**SEGA**™
