

OMNI ARENA

2-Players

2.8m /
9'1"

2.6m /
8'5"

- ▶ 2 computers
- ▶ 3 monitors
- ▶ Custom gun controllers
- ▶ 3 games (additional software TBA)

4.6m /
15'

Elevate Your Reality

Max weight: 285 lbs / 130kg
Min height: 4'8" / 142cm
Max height: 6'4" / 196cm

HARDWARE

OMNI ARENA includes custom gun peripherals that were crafted specifically for the Vive motion controllers.

- HTC Vive VR headsets include position sensors as well as motion controllers that increase the sense of immersion in the game.

Harnesses of 3 different sizes allow a player of any size and height to experience full control of virtual reality.

Omnidirectional treadmills from Virtuix have no moving parts and adjust to fit any height.

Omni shoes ensure smooth glide on the treadmills, and the omni foot sensors provide accurate tracking.

OMNI ARENA

5-Players

5m /
16'5"

2.8m /
9'2"

- ▶ 5 computers
- ▶ 6 monitors
- ▶ Custom gun controllers
- ▶ 3 games (additional software TBA)

6m /
19'7"

OMNI ARENA

SOFTWARE

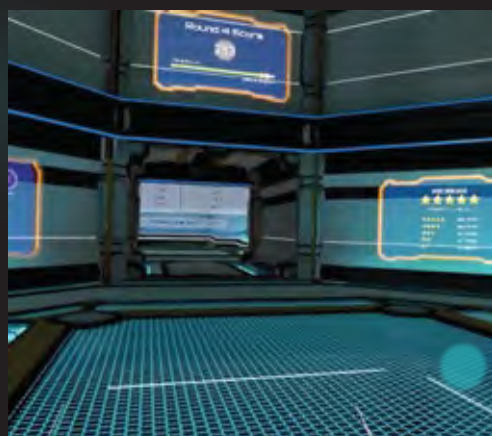

Omni Arena

"Speed, accuracy and situational awareness" are the primary skills required to play this game. It's a multiplayer co-op shooter with Arena style locales where the players protect objectives against hostile AI enemies.

Training Ops

A singleplayer time attack style game, where the player has to run through one of the available obstacle courses and shoot moving and static targets. The game includes several levels and serves as a great introduction to VR for new players.

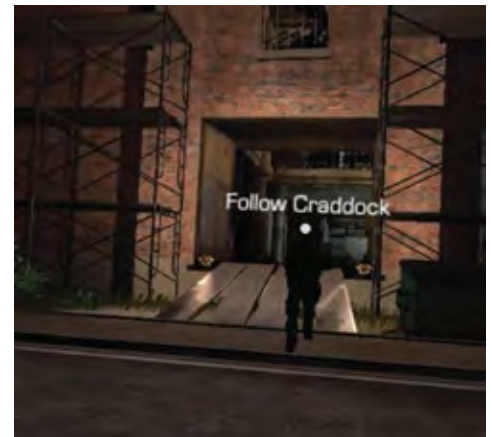

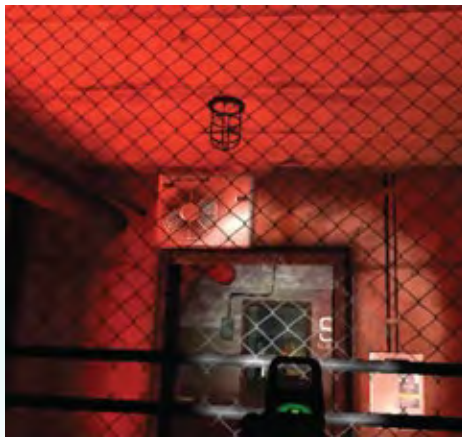

OMNI ARENA

SOFTWARE

Shadow Ops

A first person shooter with a healthy dose of suspense and jump scares. This is a longer and slower experience, but it doesn't make it less exciting. The abandoned facility is up for exploration, if you dare....

... And More Games To Come!
