

FIVE STAR REDEMPTION

Monster Grand

SINGLE PLAYER TECHNICAL MANUAL

November 10, 2010

Features

- Bright Attention Grabbing Graphics & Cabinet
- Hot looking Lights
- Exciting Super Fast Skill Stop
- Oversized Highly Reliability Buttons
- Operator Programmable

Specifications

Parameter	Value	Units
Voltage	115	VAC
Frequency	60	HZ
Weight	600	Pounds

Overview

Monster Hunt consists of two lighted clock faces with motorized spinning disks, a player console with large buttons & levers, numeric displays for game play, speakers for sound effects, two coin acceptors, and a ticket dispenser. The objective is to skillfully stop the spinning disks so the player can attempt to accumulate trading cards or to maximize points

Game Play

Monster Club offers very fast and interesting play with many different strategies for maximizing the points you can win.

Spinner# 1 allows the player to accumulate trading cards to win tickets or create an opportunity to go to the Spinner# 2 to win tickets at higher levels possibly.

- 1) Insert coin(s) to ready the game for play.
- 2) Pull back the *Start Lever* to begin the *Spinner Spinning*.
- 3) There are several seconds in which to influence where the *Spinner* will stop by skillfully pushing the *Slow Stop* button which decreases spinner speed or pulling back on the *Start Lever* which will increase the spinner speed.
- 4) Points can be awarded and are displayed each time the *Spinner* is spun, however, you may choose to go to the next level and take the points.

Program Mode

Program Mode allows the Game Operator the option of programming the Game by entering data through the Control Panel, which is located on the front panel of the cabinet. This mode includes viewing the game's statistical data, running diagnostics, and changing game play values.

To go into *Program Mode*, Hold Down both the '*' and '#' symbols for approximately 5 seconds the Keypad Display should go Blank, next enter the number "11" which will allow the game operator to go into *Program Mode* (Keypad should display all zero's).

Pressing the **FAST STOP BUTTON** will decrement the Value, Pressing the **SLOW STOP BUTTON** will increment the value. To increase the **STEP NUMBER** use the Numeric Keypad and press the '*', to decrease the **STEP NUMBER** press the '#' symbol. To Go to **STEPS** directly Hold down the "*" key while entering the **STEP NUMBER** in the keypad. Pressing the *Program Mode* or Holding Down both the '*' and '#' symbols will allow the operator to exit. The program button is located near the main board inside of the cabinet.

Changing Program Values

CHANGING PROGRAM VALUES

To increase the **STEP NUMBER** use the Numeric Keypad and press the ‘*’, to decrease the **STEP NUMBER** press the ‘#’ symbol. To Go to **STEPS** directly Hold down the ‘**’ key while entering the **STEP NUMBER** in the keypad. To View Spinner’s 1 – 2 Data Press the **SLOW STOP BUTTON** to cycle through each spinner.

STEP #	DESCRIPTION	DESCRIPTION
0	Coins required to play	Number of coins required to play
1	Attraction audio on time	Number of seconds attraction audio is on (0 disables attraction audio)
2	Attraction audio off time	Number of seconds attraction audio is off per attraction cycle
3	RPM1 speed before break is engageable	Spinner #1 RPM above which stop lever can cut motor power (increments of 1)
4	RPM2 speed before break is engageable	Spinner #2 RPM above which stop lever can cut motor power (increments of 1)
5	RPM1 SPEED to ENABLE DITHER	Spinner #1 RPM dither before enabling cutting motor power during ramp up (increments of 1)
6	RPM2 SPEED to ENABLE DITHER	Spinner #2 RPM dither before enabling cutting motor power during ramp up (increments of 1)
7	RPM1 Spinner cruising Speed	Spinner #1 cruising RPM (increments of 5)
8	RPM2 Spinner cruising Speed	Spinner #2 cruising RPM (increments of 5)
9	RPM1 spinner maximum hyper speed	Spinner #1 maximum hyperspeed RPM (increments of 5)
10	RPM2 spinner maximum hyper speed	Spinner #2 maximum hyperspeed RPM (increments of 5)
11	RPM1 speed to enable brake	Spinner #1 RPM above which stop lever can energize brake (increments of 1)
12	RPM2 Speed to enable brake	Spinner #2 RPM above which stop lever can energize brake (increments of 1)
13	RPM1 spinner maximum run time	Maximum time before power is removed from spinner #1 motor (increments of 1)
14	RPM2 spinner maximum run time	Maximum time before power is removed from spinner #2 motor (increments of 1)
15	Number of cards to enable thief	Number cards required to enable thief to take away cards (increments of 1)
16	Action when thief not enabled	Action if thief is not enabled where 1-25 number of free tickets, 26 = auto spin (increments of 1)
17	Auto spin Until Game Over	0=do not auto spin, 1=auto spin until game is over (increments of 1)
18	Consolation points when card repeated	Number of consolation points given when card is repeated (increments of 1)
19	Number CARDS TAKEN THIEF1	Number of cards taken by thief1 (increments of 1)
20	Number CARDS TAKEN THIEF2	Number of cards taken by thief2 (increments of 1)
21	Maximum points per game	Maximum number of points per game (increments of 25)
22	Number points per ticket	Number of points required per ticket dispensed (increments of 1)
23	Maximum spins Per Credit	Maximum number of spins per credit (increments of 1)
24	Number cards to go higher	Number of cards taken to go higher (increments of 1)
25	Action if card repeated	Action if card repeated where 0=consolation points only, 1-10 = number auto spins (increments of 1)
26	Demo mode	0=not demo mode, 1=demo mode
27	Enable keypad display	0=do not enable keypad display in game mode, 1=enable keypad display in game mode
28	Play instructions during attraction	0=do not play instruction sound during attraction, 1=play instructions sounds during attraction
29	Timeout to go higher	Timeout to go higher where 1=12second, 2=15second, 3=20second, 4=25second
30	Spinner diagnostic sensitivity	Spinner diagnostic sensitivity (1=most sensitive, 9=least sensitivity)
31	Extra_games_disable	0=enable extra games, 1=disable extra games
32	Card_removal_order	1= left-to-right, 2=right-to-left, 3=most-recent
33	Timeout_to_spin_with_credits	Time to push Start button before automatically spinning when player has credits (increments of 1)
34	Timeout_to_spin_with_no_credits	Time to push Start button before going to attraction when player has no credits (increments of 1)
35	Time allotted for Full throttle	Time spinner must spin before the player can apply full-power to the spinner (increments of 1)
36	Minimum for Small jackpot spinner1	Minimum points for small jackpot on spinner #1 (increments of 10)
37	Minimum for BIG jackpot spinner1	Minimum points for big jackpot on spinner #1 (increments of 10)
38	Minimum for Small jackpot spinner2	Minimum points for jackpot on spinner #2 (increments of 10)
39	Minimum for BIG jackpot spinner2	Number cards required to enable spinner cash out (increments of 1)
40	Number of cards to enable cashout	Number cards required to enable spinner tradein (increments of 1)
41	Number of cards to enable trade in	Number cards remaining after spinner tradein (increments of 1)
42	RPM1 Spinner minium to enable kick	Spinner #1 RPM above which player can abort a stop (increments of 1)
43	RPM2 spinner minium to enable kick	Spinner #2 RPM above which player can abort a stop (increments of 1)
44	Spinner1 maximum number of kicks	Spinner #1 maximum number of kicks allowed (increments of 1)
45	Spinner2 maximum number of kicks	Spinner #2 maximum number of kicks allowed (increments of 1)
46	Spinner1 maximum kick time	Spinner #1 maximum kick time allowed (increments of 1)

Changing Program Values

STEP #	DESCRIPTION	DESCRIPTION
47	Spinner2 maximum kick time	Spinner #2 maximum kick time allowed (increments of 1)
48	Swipe card to the top enable	0=disabled, 1=enabled
49	Swipe to top coin	Number of times coin meter incremented for swipe to top (increments of 1)
50	Dispense tickets during game play	0=disabled, 1=enabled
51	Bank bate cashout enable	0=disabled, 1=enabled (enabled allows player to tear tickets off to cashout)
52	Bank bate ticket delay	0=0.0 sec, 1=0.5 sec, 2=1.0 sec
54	Points for 01 cards	Number of points awarded for 01 cards (increments of 1)
55	Points for 02 cards	Number of points awarded for 02 cards (increments of 1)
56	Points for 03 cards	Number of points awarded for 03 cards (increments of 1)
57	Points for 04 cards	Number of points awarded for 04 cards (increments of 1)
58	Points for 05 cards	Number of points awarded for 05 cards (increments of 1)
59	Points for 06 cards	Number of points awarded for 06 cards (increments of 1)
60	Points for 07 cards	Number of points awarded for 07 cards (increments of 1)
61	Points for 08 cards	Number of points awarded for 08 cards (increments of 1)
62	Points for 09 cards	Number of points awarded for 09 cards (increments of 1)
63	Points for 10 cards	Number of points awarded for 10 cards (increments of 1)
64	Points for 11 cards	Number of points awarded for 11 cards (increments of 1)
65	Points for 12 cards	Number of points awarded for 12 cards (must be 0)
66	Points for 13 cards	Number of points awarded for 13 cards (must be 0)
67	Points for 14 cards	Number of points awarded for 14 cards (must be 0)
68	Points for 15 cards	Number of points awarded for 15 cards (must be 0)
69	Points for 16 cards	Number of points awarded for 16 cards (must be 0)

RESETTING THE STATISTICS

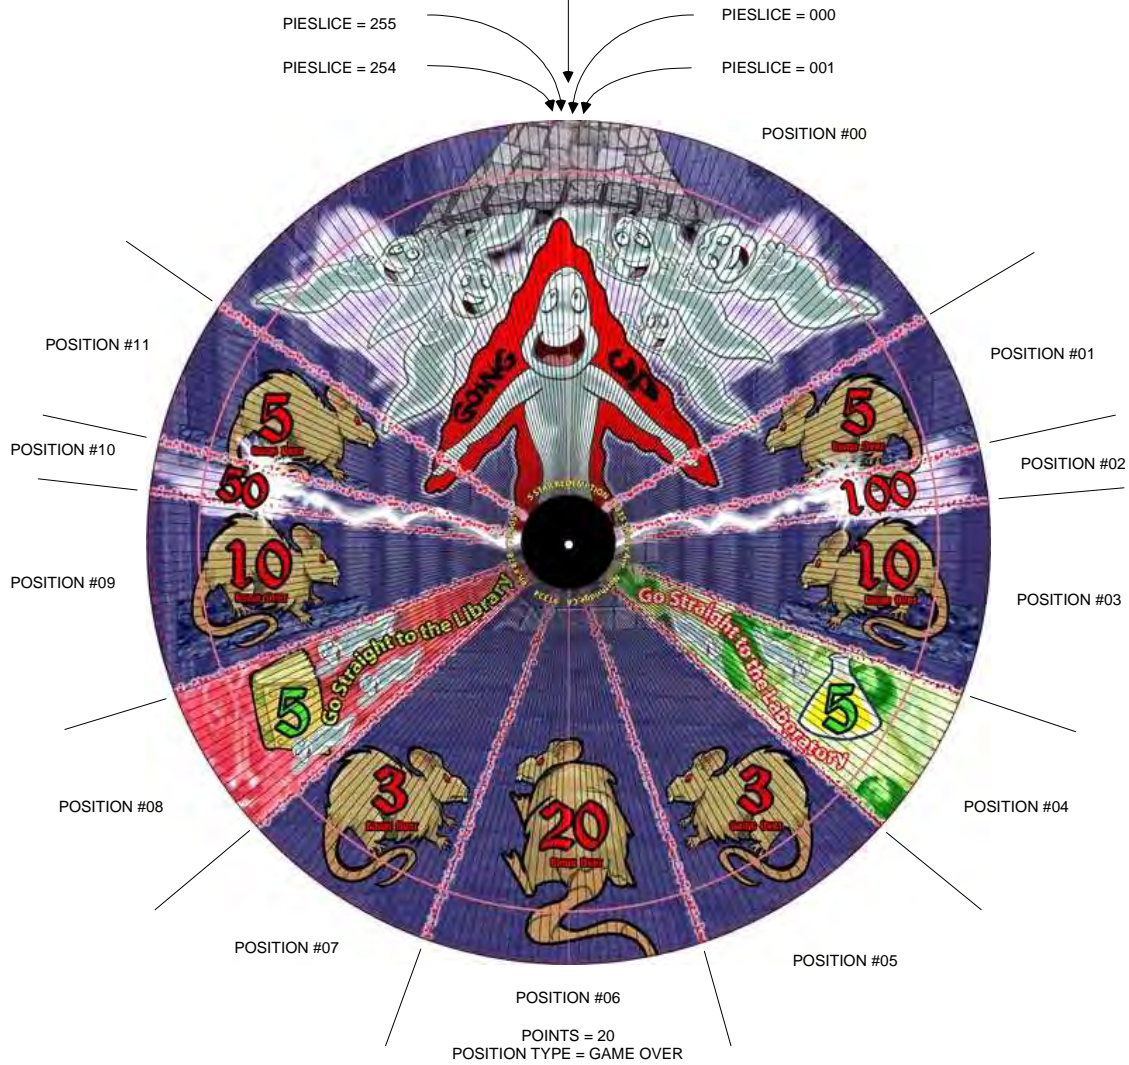

Pressing the **FAST STOP BUTTON** will execute the reset.

RUNNING DIAGNOSTICS 76

Checking Spinner Motor

Push **Left Instruction Pushbutton** to select desired spinner to test. The number of the selected spinner is shown on the RPM display. Pulling the **Start Lever** to energize the spinner motor. Hold down the **Slow Stop Pushbutton** while pushing the **Start Lever** to cause the spinner to spin more slowly. Perform the troubleshooting steps in the sequence specified in Troubleshooting Steps for Diagnostic 76 on next page.

Step 76 Diagnostic Layout

Changing Program Values

TROUBLESHOOTING STEPS FOR DIAGNOSTIC 76

Problem	Solution
Particular spinner(s) do not spin	<ul style="list-style-type: none"> • Verify spinner board switches are set correctly • Examine/reseat wiring harness connections to spinner boards • Swap spinner boards to see if problem moves with the boards and replace any spinner board found to be defective (be sure board switches are set correctly) • Replace spinner motor and retest
Particular brake(s) do not activate	<ul style="list-style-type: none"> • Verify spinner board switches are set correctly • Examine/reseat wiring harness connections to spinner boards • Swap spinner boards to see if problem moves with the boards and replace any spinner board found to be defective (be sure board switches are set correctly) • Adjust/replace spinner brake and retest
All spinners do not spin	<ul style="list-style-type: none"> • Examine/reseat wiring harness connections to spinner boards • Look for low-voltage changes at VTMux board output when spinner should be spinning and if voltage does not change, replace VTMux board and retest
All brakes do not activate	<ul style="list-style-type: none"> • Examine/reseat wiring harness connections to spinner boards • Look for low-voltage changes at VTMux board output when brake should be activated and if voltage does not change, replace VTMux board and retest

RUNNING DIAGNOSTICS 77

Display Keypad Inputs

Push each of the individual numbers on the keypad to display the associated keypad number.

RUNNING DIAGNOSTICS 78

Testing Ticket Dispenser

Push the Flashing **Call Attendant Pushbutton** to Dispense a Single Ticket.

Troubleshooting Steps for Diagnostic 78

Problem	Solution
Does not dispense tickets	<ul style="list-style-type: none"> • Clear ticket dispenser of any jammed tickets • Load tickets if empty • Try dispensing a ticket using diagnostic mode, if ticket does not dispense: <ul style="list-style-type: none"> ○ Check wiring harness ○ Replace ticket dispenser and retest ○ Replace VTMux board and retest

Changing Program Values

RUNNING DIAGNOSTICS 79

Testing for Spinner Intermittent Problems

Check for spinner intermittent problems while spinners are spinning. Momentarily press keypad 1-5 to begin test on selected spinner. **Press Keypad 0** to stop test. Perform the troubleshooting steps in the sequence Troubleshooting Steps for Diagnostic 79.

Step 79 Diagnostic Layout

Troubleshooting Steps for Diagnostic 79

Problem	Solution
Spinner errors detected (a couple errors during a couple minutes of operation is normal and will not cause problems in game's operation)	<ul style="list-style-type: none"> Examine/reseat wiring harness connections to spinner boards Replace spinner board and retest Replace spinner mechanism and retest

Viewing Steps 80 - 87

VIEWING ADDITIONAL STATISTICAL INFORMATION'S STEPS 80 - 87

Step's 80 – 87 The RPM display will give the Value or Data associated with the step, and the Total Points Display gives the Spinner Number. Pressing the “SLOW STOP” Button will cycle through and select all of the Spinners.

Statistical Information Steps 80 - 87

REPLACING SPINNER

Appendix C Replacing or Realigning Spinner Wheels

INSTRUCTIONS FOR

1. REPLACING A SPINNER'S ENCODER WHEEL or
2. REALIGNING AND TIGHTENING ENCODER WHEEL

	<p>WHAT YOU WILL NEED:</p> <ul style="list-style-type: none">A SPINNER FORK (a)A NUMBER 2 PHILLIPS HEAD SCREWDRIVER (b)A 7/64 inch ALLEN WRENCH (c)
---	--

STEP # 1:

Power game down. Detach any harnesses connected to the spinner. Loosen wing nuts shown and remove spinner assembly from game.

STEP # 2:

Using the 7/64 Allen Wrench, remove the two allen bolts that hold the ghost arrow to the pulley

STEP # 3

Using the # 2 phillips head screwdriver, remove the 4 screws which hold the black spinner assembly to the white main spinner bracket. Then remove the black spinner assembly from the white main spinner bracket

REPLACING OR REALIGNING SPINNER WHEEL

INSTRUCTIONS FOR REPLACING A SPINNER'S ENCODER WHEEL

STEP # 4

(SKIP STEP IF YOU ARE ONLY REALIGNING AND TIGHTENING)

Using the # 2 screwdriver, remove the set screw that holds the brake arm. This screw is next to the brake spring.

STEP # 5

(SKIP STEP IF YOU ARE ONLY REALIGNING AND TIGHTENING)

Turn the assembly around and loosen the set screw which holds the pulley to the motor shaft. Then, lift the brake arm and slide the pulley and encoder disc off.

STEP # 6

(most critical step)

Slide the spinner fork against the motor shaft. Lower the pulley and encoder disc onto the motor shaft so that it rests gently upon the fork. This will give you the proper spacing. Then, tighten the set screw loosened in Step #6, and remove the spinner fork.

NOTE: UNITS BUILT AFTER 3/01/07 HAVE A NOTCH CUT INTO THE MOTOR SHAFT THAT THE SET SCREW TIGHTENS INTO. IF YOUR UNIT IS DATED AFTER 03/01/07 - THE SET SCREW MUST BE TIGHTENED INTO THIS NOTCH TO FUNCTION.

REPLACING OR REALIGNING SPINNER WHEEL

STEP # 7

Take a moments now to observe the new assembly. The encoder disc should not be touching the white spacers near the motor shaft . The disc should be seated about an 1/8" away from these spacers.

STEP # 8

Reattach the black spinner assembly to the white main spinner bracket . Then install the whole assembly back into the game

RECALIBRATION PROCEDURE

Using the keypad - go to the step associated with the recently replaced spinner

Step #71 = Spinner #1

Step # 72 = Spinner #2

Step #73 = Spinner #3

Step #74 = Spinner #4

Step #75 = Spinner # 5

TO ENTER PROGRAM MODE - take the keypad and hold in the # and * buttons until the keypad display goes blank. Push 1-1 on the keypad - you are now in program mode. Hold the * button down and push either 71, 72, 73, 74, or 75

By lightly tapping the FAST STOP BUTTON, move the spinner arrow until it reaches the 12 o'clock position, where there should be an alignment line. Once the point of the arrow is at 12 o'clock - hit the flashing START BUTTON. Your spinner is no recalibrated.

If you have any questions during your installation - feel free to call our technical service department directly at

(818) 775 - 9374

or, if a technician is not immediately available, please call

(818) 581 - 1772

Appendix D

TECHNICAL ASSISTANCE

Most distributors provide technical assistance for the products they sell. If your distributor cannot solve your problem, assistance can be obtained through Five Star Redemption. Call (818) 773-6057 extension 232 between the hours of 8:00 AM and 4:00 PM Pacific time, Monday through Friday, and ask for the service department.

Please have the following information available:

1. Type of Game
2. Serial Number
3. Distributor's Name
4. Description of Problem

The service technician may ask you to perform some tests on your machine, so it is preferable to call from the game's location if possible.
