

BEST OF SHOW ARCADE MACHINE AWARDS | 2015

FOR IMMEDIATE RELEASE

Bumper Year For New Arcade Machines – The 2015 BOSA Awards For Best New Arcade Game Products Presented To Excited Amusement Industry Manufacturers In Las Vegas.

Las Vegas, NV (PRWEB) Apr 21, 2015 - Taking the center stage for global amusement awards, BMIGaming.com and [The Stinger Report](http://TheStingerReport.com) celebrated their annual presentation of the **Best Of Show Arcade Machine Awards** at the recent 2015 **Amusement Expo** in Las Vegas, handing out the coveted amusement award to a handful of highly appreciative and innovative arcade and amusement industry manufacturers on the show floor this year.

This year's highly contested **BOSA Awards** saw many of the leading trend-setting and revenue generating amusement, redemption and attraction pieces being singled out. The **BOSA Awards** also rose to a new level of influence within the industry this year, with many **BOSA Award** recipients actively displaying their award status in their booths at the show.

Many trade attendees on the show floor noted that the **BOSA Awards** have become one of the most accurate predictors of new amusement machine market popularity, and provides a high "recognition factor" amongst arcade industry buyers.

Over 50 new products in four product categories were closely evaluated by the panel of judges from BMIGaming.com and [The Stinger Report](http://TheStingerReport.com) this year, and twelve amusement manufacturers were selected to win the 2015 **BOSA Awards** :

The highlight of this year's awards is the new **Motion / Interactive Theaters and Rides** category, which demonstrates the continued growth of **BOSA Awards**, with the first Gold Award in this category presented to *Simuline* for their unique **Valkyrie Interactive Motion Theater Ride** and a Silver Award to *DOF Robotics* for the **SuperNova XD Cinema Ride**

For the **Video Arcade Games** category, the Gold Award went to *Raw Thrills* for **Jurassic Park Arcade Motion Deluxe**, the Silver Award given to *SEGA* for **Showdown Special Attraction**, the Bronze Award to *Andamiro Entertainment* for **Pump It Up Prime 2015**, and the Honorable Mention Award to *Universal Space (UNIS)* for **Armed Resistance DLX**.

In the **Video Redemption / Videmption Games** category, *Team Play* scored the Gold Award for **Fishbowl Frenzy**, the Silver went to *Innovative Concepts In Entertainment* for their **Kung Fu Panda Arcade : Dojo Mojo**, the Bronze to *Adrenaline Amusements* for **Flying Tickets Arcade**, and Honorable Mention to *LAI Games* for **Shooting Mania**.

The **Redemption Arcade Games** category saw the Gold going to *Universal Space* for **Panning For Gold Arcade**, the Silver to *Toccata Gaming* for **Zombie Snatcher**, the Bronze to *Benchmark Games* for **SpinDrome**, and the Honorable Mention Award going to *Innovative Concepts In Entertainment* for **Gold Fishin' Arcade**.

The **BOSA Awards** present a widely respected platform showcasing the best in new amusement machine innovation, and over the years has become a highly influential tool in shaping the purchasing decisions of arcade machine buyers worldwide. Judging for this year's awards was conducted on the show floor of the annual **IAAPA Amusement Expo** held in Orlando, FL, with the judges undertaking a industry-unique process of live, hands-on product gameplay and review of all new arcade products on display, then conducting a long, demanding evaluation and selection of the reviewed games to determine what we think are the most innovative, eye-catching and unique products for each **BOSA Awards** category.

This year also saw the test launch of the new **Peoples' Choice Awards** (PCA), which although is *not* affiliated with the annual **BOSA Awards**, does allows the general public to vote on **BOSA Award** nominees, via an interactive online poll.

Based on the feedback gained from this new approach of measuring arcade game popularity online by the end-user, the **BOSA** team is considering expanding the **PCA**, but moving it to the fourth quarter after the **BOSA Awards** are announced, so end-users can play and experience first-hand all **BOSA**-nominated games, before voting on them.
