

FOR IMMEDIATE RELEASE

BMIGAMING.COM ACHIEVES TOP 100 COMPANY STATUS WITH 2800% GROWTH

Hot 100 List Compiled by Entrepreneur Magazine and PriceWaterhouseCoopers

Boca Raton, Florida (June 14, 2006) - BMI Gaming, Inc. announced today that *Entrepreneur Magazine* and *PriceWaterhouseCoopers* have released their highly anticipated annual listing of the fastest-growing companies in America. This year's honorees cross a wide spectrum of industries, from real estate and technology firms, to banking and online auto and arcade game firms. After posting rapid revenue growth for the past 3 years, BMIGaming.com was honored as the 87th fastest growing company in the nation, and joins such up and coming firms on the 2006 list as Huron Consulting, Kayak.com, LogoWorks.com, Sierra Logic and CommerceWest Bank.

The 12th Annual Hot 100 list was compiled from an initial list of fast-growth firms supplied by Thomson Financial, PriceWaterhouseCoopers and the National Venture Capital Association (NVCA). This year marks the first time BMI Gaming has appeared on the list.

Founded by CEO David L. Young in 2002, BMI Gaming is one of the leading online global coin-operated arcade game distributors, offering a broad line assortment of commercial-quality arcade and amusement devices for both residential and commercial use, with its headquarters based in Boca Raton, Florida.

BMI Gaming specializes in marketing its gaming products to the rapidly emerging consumer / residential game room market, as well as to commercial accounts such as amusement parks, arcades, commercial businesses, non-profits and government entities, and offers a variety of gaming products ranging from \$500 to over \$150,000. BMI Gaming was added to the list by its ability to achieve a total sales growth of over 2800% over the last three years.

Each Hot 100 Company must have been started no earlier than 2001, have annual sales in excess of \$1 million, have less than 1,000 employees, and founders must be actively involved and have a controlling interest in the business. Entrepreneur reports the average age of a Hot 100 CEO is 41 years, and men outnumbered women on this year's list by more than a 3:1 margin.

This year, the business services industry took the lead with 33 companies on the list, including staffing, advertising and consulting firms falling into this category, and the biggest employer trends this year are keeping employees happy, a greater emphasis on work-life balance, and offering flextime and telecommuting from home.

Hot 100 companies reported a combined total of over \$1.7 billion in sales for 2005, a substantial increase from the \$795 million reported in 2004, and E-commerce firms came on strong in 2006, with six spots on the list, including BMIGaming.com

For the complete story on the Hot 100, pick up a copy of the June 2006 issue of *Entrepreneur Magazine* on sale nationwide, or visit: www.entrepreneur.com/hot100
